

To whom it may concern;

I listen to Klove everyday at work and when ever I am in my truck. My job takes me all over the Panhandle of Texas, New Mexico and Kansas. I listen to Klove and Air 1 stations the whole way. The Klove stations broadcast good wholesome christian music, that I am not afraid to let my kids listen to, and local weather and emergency information. In my travels, I am supprised at the really lousy radio that the out lying areas, have to listen to, and it is no wonder that there is problems with the kids that listen to it because it is all they have. Klove has broaden their horizons by providing an alternative to the garbage they had been listening to, while letting them know that there is a 1-800 number that they can call if they are at their wits end. I feel that Klove is in the interest of the public because it is the only station that I know that asks people to call just to be prayed for. Me and my family would be at an extreme loss if we had to go back to listening to the commercialized christian station that also broadcasts in this area, because they are not concerned about me and mine, but about how much money they can make off of me.
